

Spelling Letter Tiles Games

Spell the Word (partner game)

Select a word from your list to spell. Take a look at it and then cover it. Place the letter tiles in a pile upside down. Everyone select 11 letters from the pile. If someone has the first letter of the word they go first and play moves to the left. The person with the first letter places it in the middle where everyone can reach it. The next player adds to the word with the second letter if they have it or picks from the pile. Play continues until the word is spelled. The winner is the person with the fewest letters at the end of the game. Reshuffle the letters and begin again with a new word.

Record the word used in the first column. Indicate which player one the round with an “X” in their column.

Word:	Player 1 Name:	Player 2 Name:

What's the Value? (individual)

Select 10 words from your list. Use the letter tiles to spell out your spelling words. Look at the numbers on each tile and find the total value of each word. Which one of your spelling words is worth the most points? In the future try to predict which word is worth the most.

Record the words you complete and the points they are worth. Predictions if made.

Spelling Word	Total Points

What's the Value? (partner version)

Try to pick a word from your list that is worth more than your partner's. Select the word first and then find the tiles to spell the word correctly and total the score for the word. Keep track of your total for each word and each round. Who is the winner at the end of the game?

Record the words you used and the scores for each player.
